A RUHR ULTIMATUM.

Another Train "Accident".

(Reuter's Service.)

Duesseldorf, February 19. The Inter-Allied Rhineland High Commission has issued a forty-eight hour ultimatum, ordering the Rhineland customs officials to decide whether they will accept the offer of re-engagement by the French or dismissal. It is understood that strong pressure is being brought to bear to re-engage, including an offer of guarantees and protection, or alternatively there will be wholesale expulsions.

A Belgian troop train has been derailed between Aix-la-Chapelle and Duren. Several men were injured. Sabotage is suspected.

Paris, February 19. The Minister of Finance is submitting to the Cabinet a Bill providing for a supplementary credit of 115 million francs for expenses in connection with the occupation of the Ruhr in January-February. The British troops withdrew yesterday from the railway line which crosses the British zone, leaving to the French and Belgians the disposal of the line from Duesseldorf to Aix-la-Chapelle.

Mr. Glass, Senator for the State of Virginia, declared in the American Senate that if put in the same circumstances with which France has been faced, the Americans would have occupied the Ruhr.

Mr. Cress, Senator, affirmed in the Italian Senate that the primordial problem of Europe is to assure the security of France. In Italy the Press has started a campaign favouring a Franco-Italian "entente" with more close relations. (By courtesy of the French Consul.)

RUSSIA AND THE REST.

"Soviet View of Japan."

London, February 19.

The Manchester Guardian's Moscow correspondent states that Kamenoff, acting chairman of the Council of Peoples Commissaries, interviewed, said that whether Russia became involved in events in West Europe depended entirely on Poland. The mobilisation of the latter would be considered a hostile act. He said there were no signs yet of a Franco-Russian rapprochement, but it was only a question of time till France would be compelled to realise she must give up her military ambitions if she wished to remain a leading nation.

Questioned regarding the change of Japanese policy in connection with Joffe's visit to Japan, Kamenoff said: "We are persuaded that Japan stands much as Russia did in 1903, on the eve of events of great social and political significance, when a complete change of policy will not be out of the question. We are convinced that before long those circles will be in power in Japan who favour a rapprochement with Russia, and the evacuation of Russian Sakhalin, which will be a preliminary condition, will be decided."

He declared that Anglo-Russian relations were distinctly worse under the new British Government, and described Lord Curzon as still living in the nineteenth century and dreaming of cutting off Russia from the East altogether.

Riga, February 19.

The French states that oil operations in Baku have been interrupted in consequence of the lack of money to pay wages.

LUXOR'S MAGNIFICENT TREASURES.

Mass of Jewellery Found

Luxor, February 19.

Treasures of untold richness are piled up in the annex to Tutankhamun's shrine room, and include a great gold box six feet high and four feet long. In it is Pharaoh's jewel-casket. The richness of the find may excite anything the most sanguine could imagine. There are also innumerable boxes, urns, jars and wine vessels, beside two beautiful statues of the King standing on a lion, heavily gilded. A mass of splendid jewellery was found in one of the boxes. Charms in the annex which have been found had been taken apart. The bodies are covered with gold plates, richly chiselled, with a coloured inlay of glass and semi-precious stones.

One of the most interesting finds is a litter for bearing a sacred boat in procession. Such a relic has not been found hitherto. Mr. Carter is of opinion that the examination, registration, photography, and treatment for removal of these treasures will occupy two years.

FINAL SOUTH AFRICAN TEST.

England's Splendid Recovery.

Durban, February 19.

The weather on the resumption of the Test was sunny, following over-night rain. The wicket was easy. England secured 201 for the loss of 9 wickets, with sensational cricket. England were 26 for 4, then Russell and Sandham in partnership carried the total to 102 for 5. It was 111 for 7 when Mann, in a dogged innings of 15, lasting 77 minutes, with Russell, brought the total to 143 for 8. Finally Gillman and Russell came together in a lively partnership, in which they respectively hit up 20 and 90 not out, Russell being magnificent in the mainstay of the side. Sandham compiled 40.

BRITISH INDUSTRIES FAIR.

London, February 19.

The British Industries Fair, organised by the Department of Overseas Trade, has been opened in the presence of Their Majesties in the White City. Twelve thousand British manufacturers have contributed to the display, on eight hundred stalls, the goods ranging from cutlery to fancy goods, particularly British dyes. A huge crowd of buyers from the Dominions and the United States is attending.

THE FRENCH TRAIN DISASTER.

Epernay, February 19.

The casualties in the railway accident at Pont Abinson were 16 killed and 35 injured.

Paris, February 19.

The station master and signalman of Pont Abinson have been arrested in connection with the Paris-Strasbourg train disaster.

M.C.C. DEFEAT AUCKLAND.

Auckland, February 19.

The M.C.C. beat Auckland by an innings and four runs. The M.C.C. scored 345, Chapman contributing 108. Auckland replied with 178, Freeman taking 7 of their wickets for 87, and followed on with 183, Freeman taking 5 for 71.

FILM STUDIO BURNED DOWN.

New York, February 19.

Fire destroyed the Cosmopolitan Film Studios. The damage is estimated at a million dollars.

DR. SUN ADDRESSES STUDENTS.

TO-DAY'S SPEECH AT THE UNIVERSITY.

Explains Why He is a Revolutionist.

PAYS TRIBUTE TO BRITISH IDEALS.

There were scenes of great enthusiasm at the Hongkong University this morning, when Dr. Sun Yat-sen, on the invitation of the University Union, addressed a large gathering of students in the Great Hall. In addition to the undergraduates there were also present many representatives of other educational institutions in the Colony and a number of well-known local people.

When Dr. Sun arrived, in company with Sir Robert Ho Tung and Mr. Eugene Chen and others, he was met at the entrance and "chained" to the Vice-Chancellor's house by a cheering crowd of students, and when he entered the Hall there was a great demonstration of welcome. The chair was taken by Mr. Edward Ho Tung, the Chairman of the Union, and among those also seated at the head table were Lady Brunyate, Sir Robert Ho Tung, the Hon. Mr. Claud Severn, C.M.G., the Hon. Mr. P. H. Holyoak, Rev. Dr. Pearce, Mr. Eugene Chen, Mr. Feedsie Macintosh, Mr. Percy Smith, etc. The Hon. Mr. H. H. Pollock was among those in the Hall.

"A Great Chinese."

In welcoming Dr. Sun, Mr. Edward Ho Tung said that it was unnecessary for him to introduce Dr. Sun in many words. His name was synonymous with that of the China, and his experience of life in that form, would make one of the most fascinating romances ever written. (Applause.) If a love of liberty was attached to greatness, if a love of one's country was a part of greatness, and if a love of one's own people was an essence of greatness, then Dr. Sun would be associated with the name of Greatness itself. (Loud Applause.) The speaker went on to refer to the time when Dr. Sun was a medical student at the Hongkong College of Medicine, from which institution the University sprang, and said they were proud of the fact that they had him before them, for he was a great Chinese, a true gentleman, and a large-hearted patriot. (Applause.)

The Hon. Mr. Chui Severn thought they would all appreciate the great kindness of Dr. Sun in coming to address them that morning—an appreciation they had shown by their demonstrative welcome. It was a matter for regret that the Vice-Chancellor was absent, but he (Mr. Severn) felt it a great honour to be there in his place. It was especially fitting that Dr. Sun should address them, because he was one of the original members of the College of Medicine. He studied under two great men—Sir Patrick Manson and Sir James Cantlie—both of whom had done a great deal for medical science. Sir James Cantlie was still alive and doing most useful work in England. He (Mr. Severn) first met Dr. Sun in the Straits Settlements before he embarked on the great work of his life, the founding of the Chinese Republic. He had met him once since in Hongkong, and he had always hoped that he would be given another opportunity of meeting him. That chance had come under very happy auspices. He could assure Dr. Sun that he had their very good wishes. (Loud Applause.)

Dr. Sun's Speech.

Dr. Sun, whose rising was the signal for another prolonged demonstration, began by saying that he felt as though he had returned home, because Hongkong and that University was his intellectual birthplace. He had not prepared a speech but thought he would like to answer a certain question which had been put to him many times and which, no doubt, many present would also like to put to him. He had never before been able to answer it properly, but he felt to-day that he could. The

country. (Applause) He got his revolutionary ideas entirely in Hongkong.

When he called himself a revolutionist, people said all sorts of things about him; they misunderstood the fact that a Chinese "revolutionist" was only a moderate man after all. He was not fighting for the extreme, he was fighting for a moderate government, for a good government. After many years of work and organisation he succeeded in overthrowing the Manchu Dynasty. (Applause) He established a Republic in its place. That Republic had lasted for 12 years and it meant to stay—it would be everlasting. (Loud Applause.)

Dr. Sun's Aim.

Of course, during the past 12 years there had been much trouble, the people had suffered more than before and they blamed the revolutionists, saying they had started all the trouble and that the old monarchy was better. But they disregarded important questions. Under a republic the people were supposed to be the masters of themselves, and his aim was to make the 400 million people of China their own masters. (Applause.) But the people did not yet understand that or realise how it could be secured. The position reminded him of the pulling down of an old house and the building of a new. They had pulled down the old Manchu monarchy, but the new building was not completed. The suffering now was a small price to pay for what he hoped would be the future happiness of China, at least the majority of Chinese did not understand the republican form. But they had many friends outside China—many sympathisers as well as opponents and critics. Critics said that China was not ripe for a republic and that it would be better to restore the monarchy. Twice during the past twelve years attempts had been made to restore the Monarchy, once by Yuan Shih-kai and once by the Manchukuo Emperor. But both attempts had failed. (Applause.) They had not succeeded very well with the republican form yet because the movement had not run its full course. They were in a transition stage. If they wanted to look for permanent peace in China, they must first get the task of change accomplished—they must finish the structure of the new house.

Fighting for Good Government.

The elements that had disturbed the revolutionists had been many. Firstly, there were the Manchus making a strong fight to exterminate the new ideas; secondly there was the mandarin class seeking to obstruct; and then there were the Tachans and militarist classes. It was only when such obstacles were gone that China would have permanent peace. They were still fighting for good government and as soon as they had good government the Chinese people would be contented and peaceful. That much could be proved by Hongkong and the Straits Settlements, for there were over one million Chinese in the south and about 600,000 here, and whatever they might have been before they went to such places, they were now peaceful and good citizens. The Chinese people were easily governed.

In conclusion, Dr. Sun said: "My fellow students: you and I have studied in this English Colony and we must learn by English examples. We must carry this English example of good government to every part of China." (Loud applause.)

A Student's Eulogy.

One of the students then rose from the body of the Hall and said they welcomed Dr. Sun there as the Father of the Republic. It was he who would give them liberty and freedom. He had already given them the Republic. He understood the ideals of British freedom and British liberty and he (the speaker) was sure that Dr. Sun was the only man who was able to save China and who could bring about the change in corrupt officials, and the disbanding of

WHARF AND GODOWN COMPANY.

Annual Meeting.

The thirty-sixth ordinary annual meeting of shareholders of the Wharf and Godown Company, Ltd., was held at the offices of Messrs. Jardine, Matheson and Co., Ltd., to-day at noon.

Mr. D. G. M. Barnard presided and there were also present Sir Paul Chater, Hon. Mr. A. O. Lang, Messrs. E. S. Abraham, T. G. Weall, H. W. Sassoon, A. H. Compton, A. S. D. Cousland, Allan Cameron (directors), W. S. Brown (secretary), R. L. Bridger, A. S. Ellis, Lau Mok-lin, W. Logan, A. W. Hern, M. A. Razack, Chau Suk-ki, E. E. Ellis, M. Chan Harr, C. H. Lyson, Ho Leung, Jan Comrang, C. H. W. Kew, Lee Ping-son, T. M. Gregory, H. A. Rodgers, M. S. Northcote, T. Arthur, E. Sadiet, J. T. Bagram, T. Peiris and W. J. Carroll (shareholders).

The Chairman said: "Gentlemen.—The report and statement of accounts, together with the auditors' report, have been in your hands for some days, and with your permission, I will follow the usual custom and take them as read."

During the past year we have been exceptionally busy, and there is a large increase in our revenue from storage, wharf and lighter work.

The balance available for appropriation is \$1,223,493.66, which includes the amount \$291,809.86 brought forward from the previous year. Your Directors recommend that this be dealt with as follows:—Pay a dividend of \$5 per share, \$450,000; pay a bonus of \$3 per share, \$240,000; transfer to equalization of dividend fund, \$100,000; carry forward, \$303,493.66; total, \$1,223,493.66; and I trust this will meet with your approval.

The special repairs fund to which it is proposed to transfer \$100,000 is a new account. It is being opened to meet the cost of extensive repairs which are becoming necessary to the older wharves and some of the lighters. You will observe from the profit and loss account that allowance for depreciation has been made as usual. In view of the satisfactory result of last year's working, your directors decided to provide \$150,000 for depreciation of Kowloon buildings. Hitherto little has been written off, and they have stood in our books at too high a figure.

The addition of \$150,000 under the heading "Land and Buildings at Hongkong" in the balance sheet, is due to the purchase of a wharf and godowns at West Point, which are a valuable addition to the Company's premises. I do not think there is anything more that calls for comment, and I now beg to propose the adoption of the report and accounts.

Sir Paul Chater seconded and the report and accounts were adopted.

On the proposition of Mr. W. Logan, seconded by Mr. R. L. Bridger, the election of Messrs. H. W. Sassoon, E. S. Abraham, T. G. Weall and A. H. Compton as directors was confirmed.

The retiring directors, the Hon. Mr. E. D. V. Parr and Mr. A. S. D. Cousland, were re-elected directors, on the proposition of Mr. C. H. W. Kew, seconded by E. E. Ellis.

On the proposition of Mr. Ho Leung, seconded by Mr. C. H. Lyson, Mr. H. Percy Smith and Mr. C. Barnard Brown were re-elected auditors at a remuneration of \$700 each.

A MURDER.

Discovery Near Kowloon City.

A murder has occurred near Kowloon City, the dead body of a male Chinese, with several wounds on the face, being yesterday found at the earth cutting off Kowloon Tong Valley, in line with the 100 foot road from Kowloon City. Death appears to have taken place during the previous night.

A blood-stained file that had been sharpened at the point and converted into a dagger was left close to the body. Deceased's clothing had evidently been searched, nothing of value being left. The motive of the robbery is unknown.

MACAO NEWS.

British Loan for Dr. Sun?

A Macao correspondent informs us that reports are current there to the effect that Dr. Sun Yat-sen may be able to negotiate a British loan for a substantial sum, the figure mentioned varying from three to six million dollars. It is said that in consideration of such a loan Dr. Sun might be prepared to abandon Bolshevism and sever all connection with the Labour Unions.

Of the seventy-one Unions which formerly existed in Macao, it is stated that only fifteen are registered, the members of the remainder preferring to continue without any guild organisation. Junks now in Macao harbour number about 1,200, which compares with a previous record of 1,600. The large number is attributed to the disturbed condition of neighbouring waterways, many boats having come into Macao to avoid being commandeered. It is estimated that the population of Macao has been recently increased by 53,000. Trade is good and the shops are all open, but housing accommodation is scarce.

AIR EXPRESSES.

Manchester and Birmingham
Connected.

Leafield, Feb. 17.

Arrangements have been com-
pleted for the inauguration next
Monday of the express air service
connecting Manchester and Bir-
mingham with the Continental air
services, which start from the Lon-
don aerodrome at Croydon.

An eleven-seater aeroplane will
occupy only two hours on the
journey from Manchester to Lon-
don, including the time of its stay
at Birmingham, where it will land
in the grounds of the British Trade
Fair—British Official Wireless per
Daily Bulletin.

ALLIES AND TURKEY.

Desire for Peace.

Leafield, Feb. 18.—While en route
for Eskikheir, where he will prob-
ably meet Mustafa Kemal, Ismet
Pasha has had conversations with
General Harrington and Mr.
Neville Henderson, British Charge
d'Affaires, and other Allied High
Commissioners at Constantinople.

A message of cordial goodwill to
him personally and for the future
of Turkey was conveyed from Lord
Curzon.

Ismet Pasha declared his desire
for peace, which the Allied repre-
sentatives reciprocated. He was
informed that Great Britain is still
willing to sign the Peace Treaty
as submitted to Turkey at Lau-
sanne, and he was strongly advised
to accept the offer before it was
too late.

It is emphasized here that Great
Britain has every desire to enter
into cordial relations with Turkey
if only the Turks will on their
part do something to assist in the
cultivation of such relations. It is
strongly felt that further conces-
sions would too seriously com-
promise the interests of the Allies
and the world and not be really
advantageous to Turkey, as foreign
capital and commerce would be
further discouraged. Not only the
business community but all political
parties feel that afterwards were
relaxed by the Lausanne conces-
sions to the furthest limit, and
this view has been expressed by
members of all parties in Parlia-
ment during the past week.—
British Official Wireless per Daily
Bulletin.

COST OF ARMAMENTS.

Leafield, Feb. 18.

A remarkable revelation of the
increased cost of armaments is
given in the reply to a Parliamen-
tary question. It stated that the
pre-war cost involved in the build-
ing of a similar type of battleship
corresponding to labour and mater-
ial prices current in 1923 would be
about £2,500,000.

It must, however, be borne in
mind that a modern capital ship
embodies features found necessary
due to war experience which in-
volves considerably greater tonnage,
offensive and defensive armament
and consequently cost.—British
Official Wireless per Daily Bulletin.

MADE DUMB BY FALL.

A girl of 11, Aine Nigel, fell
from the Paris express as it was
nearing Metz, its destination. She
sustained no bodily hurt, but lost
the power of speech, and doctors
say she will remain dumb for the
rest of her life.

HAT AIMS TO PLEASE

The sterling virtues of economy, practicality and
durability were not emphasized in this hat, or could it be
induced to take a decided stand on the large or small issue.
It merely aimed to be becoming. Black lace, feathers and
black satin, helped it achieve its end.

EARLIER TELEGRAMS

STORMS AT HOME.

London, Feb. 19.

A storm and gale, accompanied in many places by heavy snow-
falls, swept Scotland and the North of England at the week-end.
There were ten-foot snowdrifts and floods, disorganising traffic in
many parts. A number of towns and villages were snowbound.
Three vessels were sunk and one abandoned at sea, while five were
driven ashore on the East Coast. There were thrilling rocket-
apparatus rescue scenes when the captain and crew of an Italian
steamer were hauled to the top of cliffs three hundred feet high.

RUBBER RESTRICTION.

London, Feb. 19.

The committee appointed by the Rubber Growers' Association
to proceed to the United States to discuss the restriction scheme has
returned. A member stated that the result of the visit was in every
way satisfactory. There was no difficulty whatever in convincing
American manufacturers of the equity of the scheme. The Philip-
pines plantation proposal was not taken seriously.

EVACUATION OF VLADIVOSTOK.

Riga, Feb. 19.

Following a similar French demand the British Government has
requested Latvia to pay £134,500 sterling for evacuating from
Vladivostok the British regiments, which acted under General Knox
and Jans in Siberia. The Latvian press contends that the demand
is unfair, saying that these troops fought under the Allies' command.

THE BOXER INDEMNITY.

London, Feb. 19.

The Federation of British Industries has decided to appoint a
committee in connection with the Government's decision relative to
the Boxer Indemnity. The Committee will examine the question from
the viewpoint of industry and make recommendations when the
Executive Committee may take action.

NEW STEAMSHIP LINE.

Sydney, Feb. 19.

Private buyers of five wooden ships from the Commonwealth
Line announce that they are preparing to inaugurate a new trading
line to East Asia. The Berringa, with which the venture is
to be opened, is being transferred to the Hongkong register owing
to the heavy cost of running under the Australian conditions.

TRANS-CONTINENTAL AIR SERVICE.

Berlin, Feb. 19.

A message from Moscow reports that a Junker aeroplane building
concern has concluded an agreement with the Bolsheviks, permitting
it to construct machines in Russia and maintain a regular service
between Sweden, Russia and Persia.

HARBOURING YOUNG GIRL

Chauffeur Imprisoned.

Li Wah-tay, a motor car driver, was charged on remand at the Magistrate's yesterday afternoon with taking away a girl under the age of 21 without the permission of her lawful guardian, and with harbouring her in his house in Park Street, Yaumatei. The girl is 16 years old.

Mr. A. E. Wood, an assistant in the Secretariat for Chinese Affairs, prosecuted. The defence was conducted by Mr. B. H. A. Webster. The mother of the defendant stated in evidence that she did not approve of her son's actions when he brought the girl home, but the defendant was deaf to her advice. The defendant's evidence was that he had wanted to marry the girl, and she had given him a false date of birth. He expressed his wish to leave his wife. The girl came to his home in Park Street, and he had taken her there despite his wife's objections.

The Magistrate pointed out to the defendant that his mother's statement of her disapproval of the girl being in the house did not fit in with his story.

The first charge was dismissed, the Magistrate concluding there was no proof that the defendant entered the girl's way.

On the second charge Mr. Webster submitted that the girl was determined to stay with him, in fact she pressed herself so much on the family that the defendant told her to return to her grandmother.

The Magistrate said the evidence of the defendant's mother alone was sufficient to convict her son. She remonstrated with him but he paid no attention. The fact that the defendant lived with the girl for three days was not consistent with his story that he urged her to leave his home. He sentenced him to two months' hard labour.

CROWN LAND SALES.

Further Brisk Bidding.

Two lots of Crown land were auctioned at the offices of the Public Works Department yesterday afternoon, yielding \$60,500 to the Treasury.

One sale was in respect of 42,000 square feet of land on the S.W. side of the motor road beyond Shaokwan. The upset price was \$19,300. The purchasers were Messrs. A. and P. Leung Hing Kee, who paid \$44,600.

The other sale involved a lot extending from Bowen Road to Magazine Gap with an area of 32,200 square feet. It was purchased by Mr. Leung Hin-sun for \$15,900, nearly three times the upset price.

POISONED FOOTBALLERS.

A close inquiry is being made into the mysterious attack of ptomaine poisoning from which three of the Notts Forest football players suffered during the last few days of December. There is little doubt the men ate some affected food while in London for their match with Chelsea on Christmas Day.

TRAP FOR SHOPLIFTER.

An electrical device has been adopted at a drapery store at Hull to detect shoplifting, and the sequel was the arrest of a married woman, who was sentenced to two months' imprisonment for theft. Filfling had been extensive and a parcel was placed on the counter with a wire attached to it. As soon as the parcel was lifted a bell rang. The defendant was found with the parcel under her arm, and subsequently many other stolen goods were found at her house.

NOTICE

Our Portrait is of Mr. E. F. WHEELER, of 22, Regent Street, Balby, Doncaster, England, who writes:—

"About two years ago I had a nasty wound break out in my big toe. I had it attended to for about three months, but during that time it had spread to all the toes, with the result that I had to undergo an operation, but with no avail. Then, after another operation, as it did not get any better, I thought I would give your 'Clarke's Blood Mixture' a trial. After taking the first three bottles I could walk better, and now after having nine bottles the wound has quite healed, and I am pleased to say I have not seen any sign of it breaking out since."

Sufferers from Bad Legs, Abscesses, Ulcers, Eczema, Boils, Pimples, Eruptions, Rheumatism, Gout, should realize that lotions and ointments can but give temporary relief. It is the state of the blood and the system that must be thoroughly cleansed of the impure waste matter. The true cause of such troubles is 'Clarke's Blood Mixture' carefully studied, overcome, and cured. The impurities, that in many cases render recovery almost impossible, disappear to last, and free from various ailments.

Of all Dealers—see that you get
Clarke's Blood Mixture
 "Everyone's Blood Purifier."

CONSIGNEES.

NOTICE TO CONSIGNEES.

ADMIRAL ORIENTAL LINE.

The Steamship "PRESIDENT JEFFERSON," having arrived from Seattle via ports, on February, 17th, consignees are hereby notified that their cargo is being landed at their risk into the Hazardous and/or Extra-Hazardous Godowns of the Hongkong and Kowloon Wharf and Godown Co. at Kowloon and stored at consignees' risk.

Consignees of cargo must produce an Import permit signed by the Superintendent of Imports and Exports, Hongkong, before Bills of Lading will be countersigned.

All broken, chafed and damaged cargo is to be left in the Godowns, where it will be examined at 10 a.m. on Feb. 22nd by the Company's Surveyor's Messrs. Anderson & Ashie.

All claims must be presented within thirty days of the steamer's arrival here, after which they cannot be recognized. No claims will be recognized after the goods have left the Godowns, and cargo undelivered on and after Feb. 23rd, will be subject to rent. No fire insurance whatever will be effected.

Consignees are requested to send in their Bills of Lading for countersignature immediately. United States Shipping Board, Emergency Fleet Corporation, ADMIRAL ORIENTAL LINE.

HONGKONG, 20th Feb., 1923.

THE LUXOR TREASURES.

One cannot help being thrilled by the thought of the tomb of Tut-ankh-Amen being opened after its many centuries of undisturbed sanctity. At the same time there is added a sense of cynicism in the contemplation of this penetration into the sepulchre of a mighty king of his day, who was laid to rest with all the reverence attaching to the religious beliefs of those very ancient times. Were the Valley of the Kings to become buried again, and the site unearthed some three thousand years hence, we wonder what the savants of that future period would have to say about robbers having broken into the tombs of the Pharaohs; for possibly even the museums that are to house the Luxor treasures would then be buried and lost to human ken. However, there can be no sentiment where science is concerned, and the passing of centuries serves as a cover to any seeming indiscretions. We see instances in our own times, for example, of the private letters and diaries of great men and women, often less than a century dead, becoming public property, or gloated over by some moneyed vulgarian who has outbid his rivals in an antiquarian's saleroom. It is not our intention to suggest that there is any sacrilege in the opening up of the tombs of Egypt's ancient rulers, or the exposure of their mummified remains to the gaze of curious hordes from many lands, in museums or elsewhere. We merely cannot refrain from commenting on the comparatively calm way in which the world views what, about thirty centuries ago, would have been a cause of universal horror, and, may be, bloody conflicts.

Actually, the discoveries in the tomb of Tut-ankh-Amen promise to be of the utmost historical interest and importance, shedding much-needed light on unknown phases of the ancient civilisation that is, after all, but vaguely described in existing records. It is not likely that modern questions of the moment—such as racial antagonisms, unemployment, or the like—will be solved by these disclosures from Luxor, but man's natural curiosity will be satisfied, and the human instinct of hoarding what is rare—to say nothing of the desire to view what is beautiful and artistic—will be appeased. Learned

Egyptologists will ponder the discoveries, experts in hieroglyphics will perhaps spend busy months poring over the material that the ancient treasury of a dead king is to give up after all these hundreds of years, and theories will be proved or confounded, to the satisfaction or chagrin of differing groups of authorities on the subject. In the meantime the newspapers will have a fairly prolific source of "copy" for their readers, the shipping lines, hotels, and tourist agents for the Egyptian "season" will profit considerably, and thousands of good folk will have the satisfaction of knowing that they have seen something that was buried away from human eyes long before our civilisation had emerged from its swaddling clothes. And over the Valley of the Kings, may be, the hovering spirits of the ancient dead will be contemplating this wonderful exhibition of modern research.

Dr. Sun's Return.

We are all for anything which will tend to improve relations between Hongkong and Canton, for we realise as well as anybody that mutual interests demand our living in the closest possible harmony. It does not greatly matter to us whether such an understanding is brought about through the medium of Dr. Sun Yat-sen or anybody else. For that reason, we can regard with some measure of toleration the fuss that has been, and is still being, made in Hongkong over the leader of the Kuomintang. At the same time, we cannot escape the conviction that the lionising to which he has been subjected will in all probability further feed the overweening ambition of this stormy petrel of Chinese politics. We should like to think that Dr. Sun has come South again more in the interests of his country than to further his personal ends. But at present we are not prepared to believe it. Time, however, will tell, and we are quite willing to await developments before reaching final judgment. There was a time, not long ago, when Dr. Sun was *non-persona grata* with the Hongkong Government. Today the attitude of local officials is by no means what it was. Whether there is justification for the change we do not know, for the simple reason that we have not been taken into the confidence of the Government. We cannot, however, forget that, despite the fact that he has more than once owed his life to the good offices of the British, Dr. Sun has never hesitated to blacken our name wherever and whenever the opportunity presented itself. We can only hope that the conversations which he has had with our officials have revealed a change of heart on his part, though remembering his past career we are chary of accepting mere verbal assurances on the point. We shall judge Dr. Sun in the future, as in the past, by his deeds. If he can bring about a new era in the relations between Hongkong and Canton, throw over his visionary ideas and prove himself a practical statesman, we shall be the first to acclaim him as a force for positive good.

European Reservations.

We notice that there is likely to be some Chinese opposition, at the forthcoming C.R.A. meeting, to the proposal that a wider application be given to the principle of European reservations. Apparently the idea is disliked by certain Chinese because they are under the impression that it involves unfair racial distinction. May we point out, however, that those who favour the provision of more European reservations have not the least desire to refuse to others what they themselves desire? Their attitude was well expressed by the Chairman of the Kowloon Residents' Association at the recent annual meeting of that body when he said that "there does exist present grave incompatibilities between native and foreign modes of living," and added that "we are rightly jealous of the privilege of living among those of our own kind." It is because Europeans have been squeezed out of some of the very best and most accessible residential districts that this demand for protection is now being made. We would not seek to deprive the Chinese of any other considerable section of the community from enjoying the

DAY BY DAY.

EVERYONE FEELS A RELUCTANCE TO PAY DEBTS IF IT CAN BE AVOIDED.—*Mr. Power Law.*

We have received a copy of the January number of the *Silver Wolf*, the official organ of the Hongkong Boy Scouts' Association, which is a most creditable little production.

For being in possession of a revolver, a Chinese watchman employed on the Empress of Canada was this morning sentenced to six months' hard labour in Mr. J. R. Wood's Court.

The Coronet management are showing "Kismet" to-day for the last time, after a highly successful run which has packed the popular little picture house at every performance during the China New Year holidays.

We understand that the public meeting to discuss the better education of British children in Hongkong is to be held on March 8th. The Hon. Mr. H. E. Pollock, K.C., is to preside, and Mr. N. Teedale Mackintosh, M.A., is to address the meeting.

A bucket marked "Scotch Mints" was found to contain a revolver and spare parts, according to a statement made by Inspector Spear in an arms case heard by Mr. J. R. Wood this morning. A Chinese who pleaded guilty to the charge was ordered to pay a fine of \$50.

The health return for the past week shows four fatal cases of small-pox (three Chinese and one American imported case) and three cases of diphtheria (one British and two Chinese), of which two ended fatally; two of enteric fever (both Chinese), one being fatal; and two of cerebro-spinal fever (one imported British and one Chinese), of which one terminated fatally. There was also one Chinese death from influenza.

HOCKEY.

The following will represent the Club against the Kings at Sookunpoo on Wednesday at 5 p.m.:—
A. Bower, E. G. England, G. Murray, G. H. Piercy, the Rev. E. W. L. Martin, the Rev. N. Evans, H. Owen Hughes, F. H. Goldman, W. Woodward, F. C. Miller and F. Schnepel.

HORTICULTURAL SHOW.

More Exhibitors and
More Entries.

The Hongkong Horticultural Society's annual show of flowers and vegetables, bids fair to be a great success this year. Under the guiding hand of Mr. P. A. Dixon, the hon. secretary, an attractive match and stalls have been laid out on the Cricket Ground, where the show is to be held on Thursday, and, judging by the number of entries received, the exhibition this year should be a fine one.

This year there are one thousand entries, of which nearly six hundred are from the Peak and over four hundred open. This is a higher entry than last year, as owing to the strike several exhibitors experienced difficulty in getting their produce to the Gardens, where the show was held. Last year there were four hundred open entries and about the same number from the Peak. This year there are 55 exhibitors, as compared with 38 last year.

This year's entries are as follows:—Pot Plants, 237; Peak, 270; Vegetables, 100; Peak, 194; Cut Flowers, 100; Peak, 89. General Exhibits, 35.

advantage of residing in specially allocated areas, but we do say that there is plenty of room in this Colony for others to warrant the setting aside of distinctive European reservations. Let the Chinese have their own reservations also, if they desire it; but at the same time give the other sections of the community a chance of living amongst their own people as well. It is no dog-in-the-manger policy that is being urged; it is a demand for a fair adjustment between Europeans and others.

INTERPORT FOOTBALL.

Shanghai's Easy Win.

(BY "QUIZ").

The long-looked-for Interport Soccer match with Shanghai was played yesterday on the Club ground before a record crowd. All seating accommodation was filled, while at the town goal-end the Chinese stood about ten deep. Leighton Hill was packed with spectators, and the footpath on the Wong-Nai-Chong Road was crowded with enthusiasts. Never before has such a large number been seen in Hongkong at a football match.

Begg started the game for Hongkong, and Shanghai were the first to attack, but their shooting was wild. Several free kicks for infringement of rules were given against both teams and the players could not settle down. The outstanding player in the defence was Quayle, the Shanghai Captain. The visitors, by their forcing tactics, soon put Hongkong off their game, but neither side looked like scoring, as the shots sent to Swan were directed from long range, while Remedios handled once only in the first half. The interval came with no score.

The hard play of the first forty-five minutes had taken the sting out of play as far as Hongkong were concerned, and when in the opening minute of the second half Shanghai took the lead, Hongkong were a beaten side. The goal should not have been scored, but through a misunderstanding between the back and Swan, Goldman came through and, running round Gerrard, gave Swan no chance.

Shanghai Player Ordered Off.

Shanghai got away from the centre and the referee pulled up Phillips for infringement. That player, abusing the referee, was ordered to leave the field. This was regretted by the spectators, especially as Shanghai had just taken the lead. This, however, spurred the visitors on to greater efforts and the left wing, always dangerous, was responsible for the next goal. Wilson got the better of Hudson and passed the ball to Coulcher, who sent in a hard shot from close range. Swan, stopping the ball, failed to clear, and Dailey, coming up on the right, put it into the net with Swan helpless, and Shanghai were two goals up.

Continuing with ten men only Shanghai held the upper hand and the ball getting out to the left, Wilson sent Coulcher in. The latter player, by a splendid individual effort, in which he made the Hongkong defence look poor stuff, worked his way through. Swan was prepared for his final but the inside man gave to Goldman, who was only four yards out and the Shanghai centre scored the visitors' third goal.

After a short halt for a winded player to recover, play resumed and Begg sent in a drive from thirty yards, but no Hongkong player being up, Remedios easily cleared. Stewart, by good work, beat a couple of opponents and gave to Chu Kwong-yung, but the Chinese player let the ball run over the line. The final whistle sounded leaving Shanghai winners by three goals to nil.

Hongkong were beaten by a much better side. The visitors played as a team, while Hongkong showed little combination. Play was on the rough side, which quite put Hongkong off their play. The visitors are to be congratulated on their win, especially on their play after one of their men was ordered off.

The teams were as follow:—Shanghai.—Remedios; Quayle (Capt.) and Turner; Ollerden, Mears and Crawford; Wilson, Coulcher, Goldman, Phillips and Dailey.

Hongkong.—Swan; Gerrard and Chan So; Hudson, Stewart (Capt.) and Leung Yuk-tong; Chu Kwong-yung; Forsyth, Begg, Valentine and Chau Kwong-yiu.

Referee, Mr. Williams; linesmen, Messrs. Hollands and Smith. The King's Regt. band played selections on the ground during the afternoon.

Other Games.

To-day Shanghai play South China on the Club ground at 4 p.m. On Wednesday, the United Services will play the visitors on the Club ground at 4 p.m. The Services team will be—Townsend (R.E.), Wynne (King's) and Bouter (Ambrose); Newton (King's), Hudson (Tamar) and Leighton (R.G.A.); Millar (Durban), Darlison (Durban), Lt. Jones (King's), Hood (Ambrose) and Weymes (Durban).

INTERPORT GOLF.

This Morning's Play.

The Interport Golf contest between Hongkong and Shanghai began at Fauting this morning. To-day 36-holes singles are being played, whilst to-morrow 36-holes four-ball foursomes will be played. Up to fifteen-time to-day, 13-holes singles had been concluded, and Hongkong had done quite well, with a promise of winning. The best golf of the morning was played by R. A. Camidge (Hongkong), who finished six up over H. R. Malcolm (Shanghai). He went round in 79, which is equal to bogey for the course. His driving was of excellent length and direction, Malcolm frequently got into the rough.

The first pair off were A. B. Stewart (Hongkong) and J. B. Ferrier (Shanghai). The Hongkong man was two up after the first three holes, but later he fell away in his putting. Ferrier played very steadily and three up at the end of the 18th. The approximate scores were Ferrier 80 and Stewart 81.

In the match between H. R. Buckland (Hongkong) and Rev. W. P. Roberts (Shanghai) both players were very erratic in driving, but recovered well. Buckland was three up at the end of the 6th hole, but he later fell off, though finishing the morning two up. The approximate scores were Buckland 83 and Roberts 85.

Major Gandy (Hongkong) and Capt. E. I. M. Barrett (Shanghai) finished up all square. Gandy played a long game, but was weak on the green. His opponent was erratic in driving, but recovered well. The approximate scores were Gandy 81 and Barrett 82.

B. D. Crawford Morgan (Hongkong) finished four up over C. T. Beath (Shanghai), the approximate scores being 81 to 84 in favour of Morgan. The Shanghai man frequently got into the rough, but he got home some good putts. G. S. Archbutt (Hongkong) finished one up over C. W. Porter (Shanghai). The Hongkong man played a very long ball and was fairly central on the green. The approximate scores were Archbutt 82 and Porter 83.

The singles are being continued this afternoon.

CRICKET.

H.K.C.C. Matches.

The Hongkong Cricket Club first eleven team will, on Saturday next, meet the Infantry on the club ground commencing at 2.15 p.m. The home team will be:—T. E. Pearce (Captain), G. A. Chadwick, L. J. Davies, F. H. Farthing, H. E. Hollands, H. Owen Hughes, A. L. Gace, E. R. Mitchell, D. E. G. Nicholson, R. E. A. Webster and R. H. Wild.

The H.K.C.C. second eleven team against the Royal Engineers at Happy Valley, at 2.15 p.m. on Saturday will be:—L. D. McNicoll (Captain), J. D. H. Crawford, B. Crowley, W. Galloway, P. Jacks, F. C. Miller, G. H. Piercy, D. Reid, M. M. Watson, J. R. Way and F. N. Young.

JAPANESE FOREIGN POLICY.

"Weak-Kneed Retrogression" Criticised.

Tokyo, Feb. 19th.—The House of Peers to-day unanimously passed a resolution recommending the Government to adjust and consolidate foreign policies. Speakers expressed dissatisfaction with the policies pursued for some years, which they described as "weak-kneed retrogression," but disclaimed any suggestion of advocating more aggressive methods. The unanimous action of the Upper House on such questions is entirely unprecedented and is regarded in political circles as significant.

The Premier, replying, assured the House that it was the Government's intention to employ its best efforts in accordance with the recommendations of the Peers.—*Reuter.*

SZECHUAN FIGHTING.

Peking, Feb. 19th.—The warfare in Szechuan is developing. Yang Sen's forces have occupied Fushun-hsien and Kweichow-fu. Tan Mao-lin has defeated Liu Cheng-hsun south of Chungking and the latter has retired towards Tzelingting. Liu Tsun-hao's troops are attempting to enter Szechuan from Shensi, whilst Kuang Fenchu's forces are likewise approaching from Kansu.—*Reuter.*

 Mr. T. D. Sheritt, from leave, has gone second engineer, Kiangyung.
 Mr. W. Spence, second engineer, Yushan, has gone acting chief engineer, Tungwah. — *Shipping and Engineering.*

EASTERN ITEMS.

From time to time mention has been made in these columns of schemes on the part of local Chinese to establish suburbs of their own in the vicinity of Shanghai, says the *N.C.H. News*. A certain amount of progress has been made in the conversion of Kiangyin into a residential district, and now it is learned that a number of merchants are proposing an even greater development in the Pootung district. According to the *Shanghai Journal of Commerce* these merchants are subscribing capital for the development scheme, which will include the establishment of a number of small villages there.

CORRESPONDENCE.

(To the Editor of the "Hongkong Telegraph")
 Interport Football.

Sir,—May I crave a few inches of your valuable space to comment on the match between Hongkong and Shanghai?

It seems to me regrettable that one of the visitors was ordered off the field, and under the circumstances, I think that the referee might have been a little less severe, although I am not questioning that he was technically correct in his action.

I certainly do think that Hongkong supporters showed very poor sportsmanship in clapping when one of their guests was ordered off and also shouting "Play the game, Shanghai!" As a matter of fact Shanghai "played the game" sufficiently well to win.

Yours etc.

HONGKONG AMAZON.
 Hongkong, 20th. Feb. 1923.

BRITISH CONSULAR SERVICE.

Changes in China.

Peking, Feb. 19.

The following British Consular changes are announced—Mr. Ker is leaving Tientsin for home for six months, and Mr. Brown will be left in charge of the Consulate-General at Tientsin.

Mr. Pratt, who is at present at Amoy, will be Vice-Consul at Tientsin.

Mr. Tours, who is due to arrive at Shanghai on March 2, will proceed to Tsinan, when Mr. George will go home on a year's leave.

Mr. C. D. Smith, who is due to arrive at Shanghai on board the Fushimi Maru, will proceed to Kiangsu, relieving Mr. Combe, who is to proceed to Chengtu as Consul-General, spending a short time at Chungking en route.

Mr. Grant Jones, who is at present at Chungking, will be transferred as Vice-Consul at Hankow, where he is expected to arrive during the latter half of April.

Mr. Moss, Vice-Consul at Hankow, will proceed to Ichang as acting Consul, and Mr. Adcock will proceed home from Ichang on March 15th on eight months leave.

Mr. Mills, Vice-Consul at Nanking, will relieve Mr. Adcock, pending the arrival of Mr. Moss.

Mr. Archer, who is expected from home at the end of March, will proceed to Chungking, relieving Mr. Combe, who will then go to Chengtu.

Mr. Olive left for Shanghai yesterday to attend the Chamber of Commerce Conference. — *Courtesy "Daily Bulletin"*

WEATHER REPORT.

Feb. 20d. 12h. 07m—Pressure has increased considerably over China where an anticyclone is forming. Pressure is nearly stationary over the Philippines and Annam.

A depression is central near Tourane.

The monsoon will set in again along the S.E. coast of China and over the N. China Sea.

Hongkong Rainfall for the 24 hours ending at 10 a.m. to-day, 0.00 inch. Total since January 1st, 0.20 inches, against an average of 2.59 inches.

FORECAST FOR THE 24 HOURS ENDING AT NOON TO-MORROW.

District. Forecast.
 Formosa Channel. N.E. winds, freshening; considerably.

2 South coast of N.W. to N.E. winds, fresh; H.K. & Lamocks.

3 Hongkong to fresh; Gap Rock..... cloudy

4 South coast of at first, clearing H.K. & Hainan. later.

T. F. CLAXTON, Director.

I.K. Observatory, Feb. 20, 1923.

A CHRISTMAS SUICIDE.

Worried because, he said, he had not received a Christmas box and was not wished a happy Christmas, a 17-year-old motor driver of Plumstead, threatened to throw up his job. He was later found hanging in a garage, having apparently stood on a petrol tin and then kicked it away.

TO-DAY'S MISCELLANY.

For eleven years work has been going on for the purpose of removing all unexploded ammunition from the wreck of the battleship "Liberte," which blew up at Toulon in 1911 with the loss of 240 lives. The vessel sank in six fathoms, on a mud bottom, and in October, 1921, it was possible for the first time to enter the hull. In February, after all ammunition had been removed and plates cut away by means of a blow-pipe, the hull was explored and one skeleton found. It was thought that no more human remains would be discovered, but it is now announced that in a cabin near the officers' quarters three more skeletons have been found, but identification is impossible.

Many years ago a popular song advised us, if we wanted to know the time, to "Ask a policeman." But in Essex you may ask a policeman much harder questions with every hope of being answered. Among the examination questions put the other day to ambitious members of the county force seeking promotion was "How many legs and wings has a fly?" We can imagine the people of Essex running up to the nearest policeman and saying: "To settle a bet, does a centipede always step off with the left foot, and if so which one?" In fact, you can always pick out an Essex policeman by his look of almost unearthly learning, and the cap and gown which are essential parts of his uniform.

A good many years ago Charles Greville put his finger on the real modern difficulty of keeping a diary when he pointed out that, when the great diarists flourished there was no such daily record of events, minutely annotated, as appears now in the various newspapers of the world. We owe our best information of many notable events—the Fire of London, for instance—to diarists: whereas it is the newspaper files which provide the raw material for history nowadays. Very few people are in a position to give that inner history of events which, for one reason or another, is not to be found in newspapers, and many people are apt to grow disgusted with what seems to them the triviality of their daily records.

There are still two moats in London, notwithstanding the loss of the Bishop's moat at Fulham, and they are within half a mile of each other. The larger is in one of the loveliest old-world corners in all the metropolitan area. It surrounds what is left—the ruined banqueting hall—of Eitham Palace, and a somewhat picturesque house of the last century. The bridge across was built in Edward IV's reign, and its graceful stone arches are things of beauty. The other moat is at Well Hall, and originally enclosed the house where Elizabeth Roper, daughter of Sir Thomas More, once lived, but the house was burnt to the ground centuries ago, and the present Well Hall, a large Georgian building, was erected outside the moat, which is now included in the grounds attached to the Hall. Here until last spring that pleasing lady of letters, E. Nesbit, had lived for many years. But perhaps the dry moat of the Tower of London should be added to the list.

A PUZZLE A DAY.

Fill in the stars with letters, and you will find two words, one reading across, and the other from top to bottom. The words will give a name familiar to everyone during the festive season.

Yesterday's answer: If a man sold an automobile for \$200, bought it back for \$150 and sold it again for \$220, he made \$30, as he started with \$200, and had \$230 at the end. Either \$20 or \$40 are common answers to this puzzle, but both are incorrect.

CHINESE PICTURE PLAY.

"The Tears of a Daughter-in-law."

For some two or three years

past the Commercial Press, Ltd.

have engaged on a modest scale,

in the production of moving

pictures. The work, purely

Chinese in conception and

execution, has been more or less

experimental, but one sees that

sufficient progress has been made

to warrant belief in a future for

Chinese picture plays, says the

North China Daily News. This was

made apparent at a private inter-

view held recently in which the

Company gave a first showing of

its latest picture, named "The

Tears of a Daughter-in-law,"

produced in the small studio

attached to the Paoshan Road

works.

The curiously literal title is

very characteristic of the play.

Given the same story, a Western

producer would have named it

"The Woman Who Wept," or

"Weeping Willow," or some such

title of sentiment, but the

Chinese craftsman laconically

names the simple fact, and

proceeds to illustrate it, with

strict economy of incident. It

is a family story showing unhap-

piness wrought by an ill-temper-

ed, autocratic mother-in-law,

and family details are recorded

with simple fidelity and without

the slightest exaggeration. An

extremely naive and effective

realism is achieved, and one im-

agines the story should appeal im-

mensely to a Chinese audience.

There is no "glamour" in it and

the story is a refreshing change

from the bombast and fusion of

Shipping to Europe, Australia, and other Ports.

THE FUTURE NEW YORK.

Looking Forward One Hundred Years.

New York—A hundred years hence it is estimated that the population of New York will exceed that of the British Isles to-day. Municipal experts, concerned at the rapidly growing congestion in the streets of the metropolis, are already agitating for the preparation of plans to facilitate the colossal developments of the future.

According to Mr. John A. Harris, the Commissioner of Traffic, the New York of next century will, in all probability, embrace a warehouse district extending from Battery Park to Times-square; its financial centre will reach from Forty-second to Fifty-ninth street; while the area from Fifty-ninth to One Hundred and Twenty-fifth street will be occupied by fashionable shops. His vision conceives the whole of Long Island and of Westchester County, on the mainland shores of the Sound, as a residential district for the New York population of 2,000 A.D.

Mr. Harris declares that to meet the conditions which this enormous population will create, it is essential that plans shall be immediately drawn to provide for scores of huge traffic arteries at different levels. There must be special elevated express highways for swift moving traffic, and dozens of bridges connecting New Jersey and the territory in New York State, west of the Hudson, with the new metropolis, and other bridges spanning the East and Harlem rivers, to provide for the traffic to and from Westchester and Long Island.

Ocean liners, he predicts, will berth far from the city of to-day at docks in Long Island, and the Hudson River docks will be devoted to commercial ocean traffic. HUGE GROWTH OF POPULATION.

Within the next twenty-five years Mr. Harris foresees a tremendous growth in population which will make the plans he suggests not only inevitable but urgent. He proposes, as a beginning, that a boulevard, 360ft. wide, shall be constructed from the Hudson River to the East River. To effect this the city would have to demolish 200ft. of buildings from river to river at an approximate cost of eleven millions sterling.

The boulevard, as he sketches it, would be arranged as follows:—Pavements (30ft. wide), 60ft.; westbound traffic (next to kerb) 100ft.; eastbound traffic (next to kerb), 100ft. The centre of the boulevard is to be devoted to westbound express traffic, 50ft.; and eastbound express traffic, 50ft., giving the total of 360ft. Beneath the boulevard provision, he suggests, should be made for the parking of motor-cars, and the express areas should be covered with an artistic concrete roadway.

Already the congestion of traffic in the street of New York has become so great as to elicit from one of the leading magistrates, Mr. House, who presides over the Traffic Court, a serious proposal for laws limiting the number of private motor-cars and taxicabs in the metropolis. Mr. House points out that his Court has dealt, since the beginning of the present year, with 45,000 cases of violation of the traffic laws, and that it has imposed fines amounting to £110,000.

With the factories of the country turning out motor-cars and trucks at the rate of 2,500,000 a year, there are now in New York State alone more motor vehicles in the streets than in the whole of Great Britain. Between three and four people are killed daily in New York City owing to the congestion of traffic and the negligence of motor-car drivers.

Mr. House anticipates a time not more remote than a year or two when the streets of New York will be so clogged with traffic that movement will become simply impossible.

FLU GERM DISCOVERED.

Schenectady, N.Y., Feb. 3.—Dr. Simon Flexner, director of the Rockefeller Institute for Medical Research, announced to-day that the institute doctors had discovered the cause of the epidemic of influenza and had succeeded in isolating the germ which is so small that it must be magnified one thousand times before it can be seen distinctly under the microscope. The germ, which first broke the throat and nose, and then attacked the lungs, making them susceptible to other germs, causing pneumonia and
